RESEARCH EXPERIENCE:

Under the guidance of Professor J Rai, I worked on a thesis “Osteoporosis and Osteoarthritis of the knee” and submitted it as partial requirement for the degree of MS Orth from the Postgraduate Institute of Medical Education and Research, Chandigarh 1989.

During my training involved in research and presented papers in Regional meetings.

As a consultant I supervised training and research of Registrars and SHOs in UK from 1991 to 2003.

Currently I have few on-going research projects on Joint Replacement surgery, ACL Reconstruction etc.

Ongoing Research

1. “B3D-MC-GHDN(a):Effect of Teriparatide on Femoral Neck Fracture Healing from October 2011 (Global Study).

Research Conducted

1. “A multicenter, prospective, observational study of the safety and efficacy of A XAMOS-Xarelto in the prophylaxis of post-surgical Venous thromboembolism after elective major orthopaedic surgery of hip or knee from May 2011(Global Study).
2. An observational, prospective, open-label study to assess effectiveness, safety and tolerability of once-yearly treatment with zoledronic acid in osteoporotic patients in a real-world setting from April 2011(Global Study).
3. “A multicenter, prospective, observational study of the safety and efficacy of 6ml Synvisc-One™ (hylan G-F 20) in Indian patients with symptomatic osteoarthritis of the knee(s) after initial and repeat treatment” from November 2009.
4. “Randomized double-blind, multi-center study of efficacy and tolerability of Pregabalin versus placebo as an adjunct to standard of care for perioperative management of patients undergoing primary Total Hip Arthroplasty” from July 2009.
5. Hemi-Arthroplasty V/s Bi-Polar Arthroplasty for fracture neck of femur from May 2009.
6. Effectiveness of Arthroscopic debridement for OA knees from December 2008.
